BUS 302  101    Lanny Wilke

What did you like most about the course?
-very useful information with growing popularity of e-commerce
-Lanny
-learning how to use the software to build pages

What did you like least about the course?
-nothing
-the texts could be better. E-business was not used at all. A text that goes along with the software would be better. I would like the instructor to use existing sites for examples & show how to add basic parts ie shopping carts.

How would you improve the course?
-nothing
-more direction would allow us to go deeper into the making of websites. The computer lab needs a tune up. Only a couple of them are even useable.
